DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-38 and 41-43 are drawn to a method for accessing a database, receiving a selection of at least one risk filter, applying the risk filter, and displaying loans.

Group II. Claims 39, 40, and 44 are drawn to a method for applying a risk filter, obtaining an estimated loss, and deriving an estimated financial outcome.

2. The inventions are distinct, each from the other because of the following reasons:

(a) Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because, group I, obtaining an estimated loss and deriving an estimated financial outcome. The subcombination has separate utility such as obtaining an estimated loss and deriving an estimated financial outcome.

Art Unit: 3691

3. The independent claims in each Group I and II recite limitations that are not found together in a common independent claim of the other group, thus it is evidence that Applicant believes a distinct invention combination lies within each set of independent claims. Also, the dependent claims then append a multiple of distinct inventive concepts for which Applicant's submission is evidence that Applicant believes each supports a distinct reason for invention. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different concepts, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of one of the inventions I and II to be examined even though the requirement be traversed (37 C.F.R. § 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

Art Unit: 3691

6. A shortened statutory period for response to this action is set to expire 0 (zero) months and 30 (thirty) days from the mail date of this letter. Failure to respond within the period for response will result in ABANDONMENT of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).
